Meet Mariami and Max!

Mariami and Max slid down the comet's tail just like the slide in the playground. First slowly, then faster, and then — as fast as the wind!

Mariami waved her arms and giggled, and Max's ears flapped in the breeze. Planets and stars rushed past them.

They had never had such a fun ride!

Colour me in!

At the very end of the comet's tail, on a little rock, sat the tiny star. It was all alone, a bit frightened and very tired, so it could barely shine.

Mariami gently picked it up and gave it a hug:

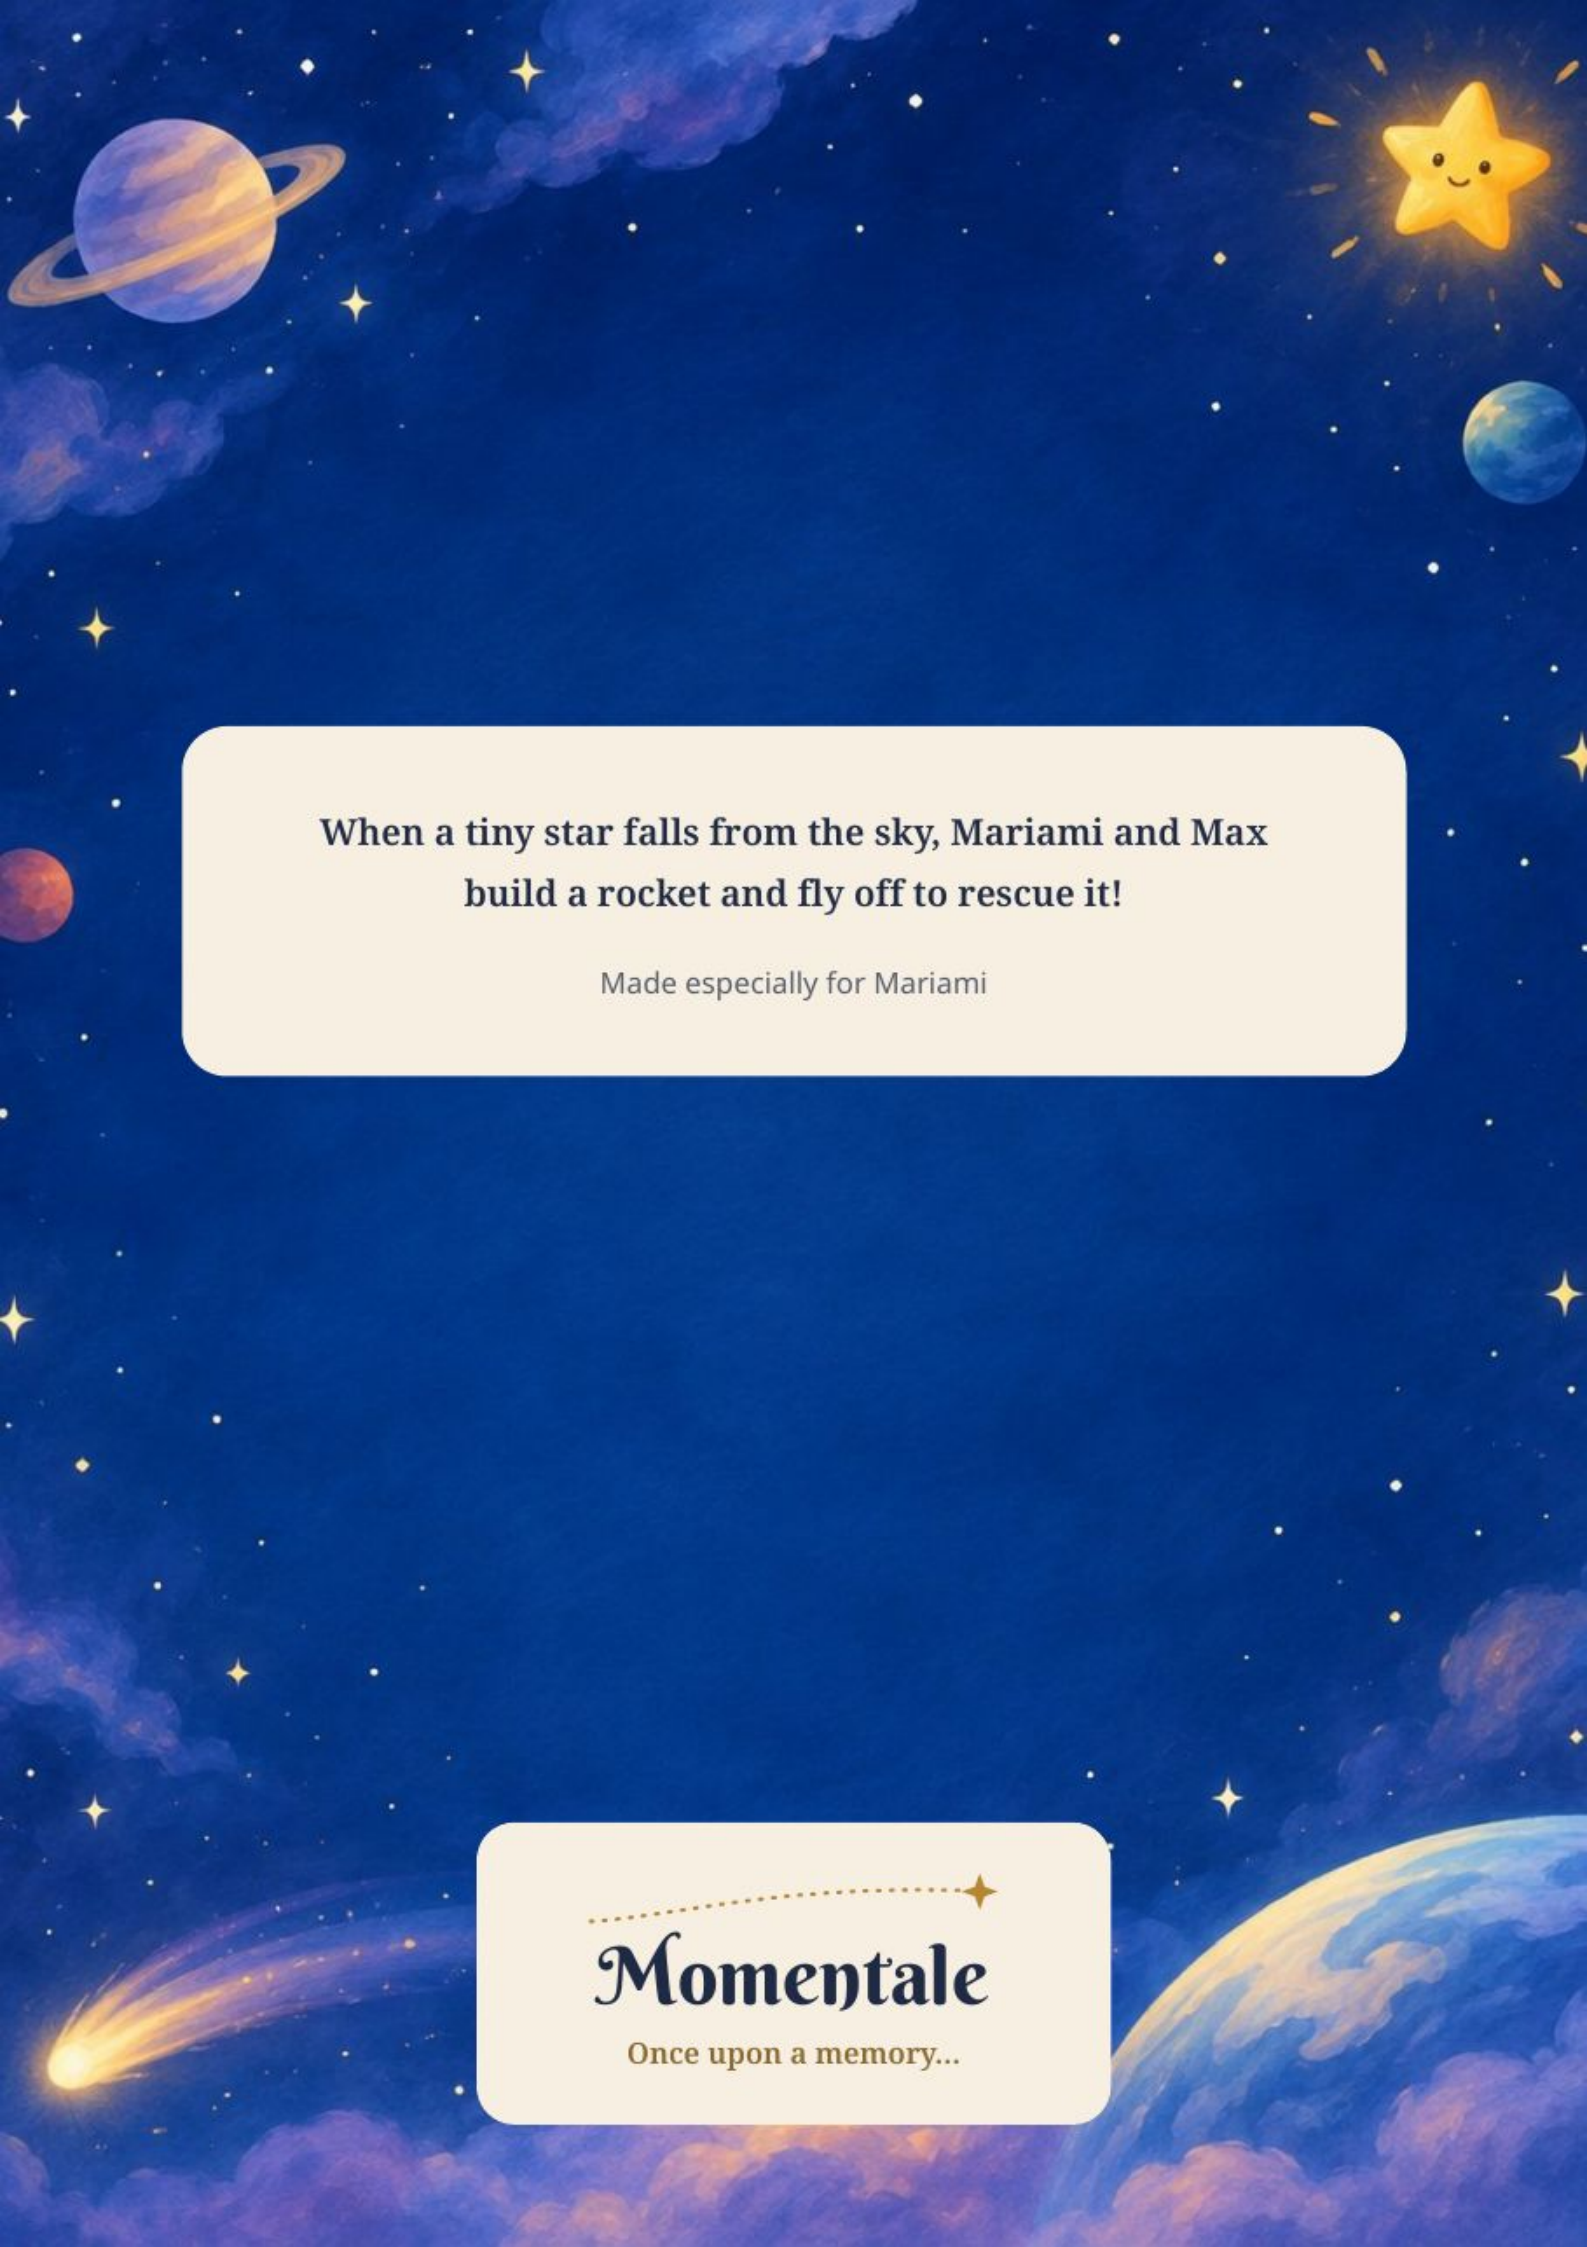

"Don't be scared. You're not alone any more."

Max licked the star on the cheek, and for the first time, the star smiled.

Colour me in!

When a tiny star falls from the sky, Mariami and Max build a rocket and fly off to rescue it!
